TPM8 PRESS BRAKE

The TPM8 is built for maximum productivity and easy operation. With its robust frame, automatic compensation, and user-friendly controls, you get precise results fast. It's all about delivering accuracy and efficiency without the hassle. Plus, with a customized starter kits you're up and running in no time, getting the best value for your investment.

1

BEST price performance ratio

The TPM achieves exceptional productivity due to its rigid frame structure, durable hydraulic crowning, and an automatic compensation system that ensures workpiece linearity and precise bending angles.

3

Bulletproof machine safety

Machine is equipped with light barrier and redundant safety circuit detection to ensure operator's safety.

2

Easy to operate

The TJS-90T system, equipped with a 19-inch touch screen, automates job preparation and provides a 3D visualization of potential collisions during the bending process.

4

Best in class Service

Dense and professional service network with local and on-site support.

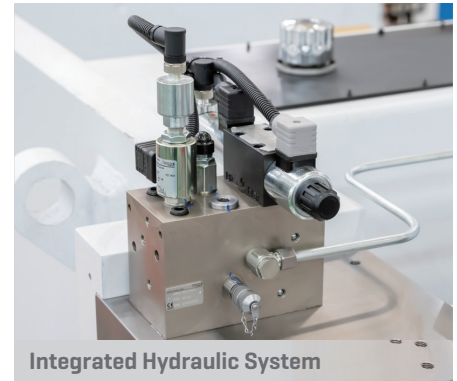

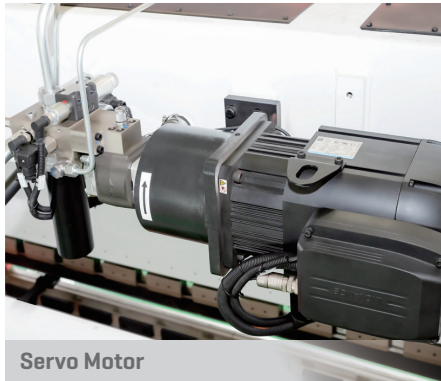

5

Tooling

Comprehensive tooling solutions and attractive starter packages for beginners and pros.

Technical Data						
Main Specification	Unit	60T	100T	150T	225T	320T
Model		60/2050	100/3100	150/3100	225/3100	320/4100
Max. Bending Force	KN	600	1000	1500	2250	3200
Max. Bending Length	mm	2050	3100	3100	3100	4100
Column Distance	mm	1600	2700	2700	2700	3700
Throat Depth	mm	350	410	410	410	410
Ram Stroke	mm	215	215	215	215	315
Closed Height	mm	480	480	480	480	580
Approaching Speed	mm/s	180	220	180	160	120
Working Speed	mm/s	10	10	10	10	9
Return Speed	mm/s	180	210	180	160	110
Main Motor Power	kW	8.5	12.4	17.8	21.4	25.2
Oil Tank Capacity	L	250	400	400	400	550
Machine Weight	kg	5320	8350	9950	13550	22500
